

Industrial Key Steel

High grade mild steel. Available in square or rectangular sections.

Metric manufactured from: **BS4235 Part 7 1972 grade steel**

equivalent to **DIN 6885**.

Inch manufactured from:

BS46 PART 7 1958 pgrade steel.

Length: 300mm and 12".

Other sizes available on request.

Set Metric Square

Contents: 4, 5, 6, 8, 10 and 12mm Square

Industrial Rack Clamps

For various engineering and maintenance applications across all industrial sectors.

A bright yellow epoxy coating gives the sliding jaw and J-bar added protection, preventing significant deterioration and prolonging the working life of the working parts.

Features: Spring loaded jaw that stays in position when pressure removed. Jaw moves to securely clamp angled surfaces. No long screws to bend. Tightening the clamps does not impose rotation to the workpiece.

Applications:

Metal fabrication
Welding
Machining
Site maintenance
Moulding box and die holding
Toolroom
Plastic and fibreglass moulding
Plate fabrication

Clamping Force 1000 kgf (10 kN)
