Yellow	-5280K	341.00

Colour-Coded Brushware

Colour coding helps to reduce the occurrence of cross contamination, reduces the risk of bacteria transfer between work areas and improves general hygiene practises. Mops, buckets, handles, brooms, brushes, cloths and wipes can all be colour coded for the work place. Understanding a hygiene colour coding system can form part of an employees basic training.

	RED - most commonly used in high risk areas such as restrooms and toilets, urinals and washroom floors	
	YELLOW - most commonly used in medium risk areas such as washroom sinks and counters, wall tiles, mirrors and metal fittings (hardware etc.)	
	BLUE - general use in lower risk areas (excluding food preparation and serving areas)	
	GREEN - general use in food preparation and serving areas, bars - any place where food or drinks are made or served
