Used to protect and stabilise pallet loads, prevents split deliveries and damage from weather and dust whilst in transit or storage. Sticks to itself and not the wrapped items.

Stretch Wrap

Avon Q-Lite the innovative pre-stretched film makes wrapping pallets easier and more efficient. There is no need to stretch the film to get maximum load holding. Operators will appreciate the ease of which Q-Lite can be applied. Q-Lite allows you to reduce waste, as the characteristics of the film mean that lost and broken ends (edge hang-up) are virtually eliminated and the film can be used to the very end of the roll.
