Wheelbarrows and Accessories

Knobby tires provide deep traction for maximum contact. Ribbed tires provide positive steering on hard-packed surfaces.

Steel Tray Wheelbarrows—Drawn trays are pressed from heavy-gauge steel. 4" large curl, ball bearing wheels, and durable chip-resistant finish for added strength. Include cross supports, leg brace, and fully balanced to help prevent accidental tipping and spillage. Models with solid polyurethane tires can run over sharp metal, glass, and even nails.

Poly Tray Wheelbarrows—Seamless polyethylene trays are durable, easy to clean, and corrosionproof. All-steel front tray braces, cross strips, and "H" braces provide extra strength. Steel leg stabilizers help make them tip resistant.

ACCESSORIES

Solid Wheelbarrow Tires—Eliminate changing flat tires. Universal fit 6" ball bearing hub will fit any wheelbarrow.

Slime Smart Tubes—Prefilled with a precise volume of sealant to seek out and seal punctures. Prevent flats up to ⅛".
