

Mouse Traps

MULTIPLE-CATCH MOUSE TRAPS

Triangle Corner—Easy-to-set galvanized steel trap is designed to save floor space and capture live mice. Clear lid makes it easy to check contents.

Speedy Clean Little Pete—Ramp unit comes out quickly and easily for cleaning, or to use trap for insects. Pop-down tabs raise unit in damp areas. Clear lid allows quick visual inspection.

Repeating—Catches multiple mice with 1 setting; mechanism sweeps mice into holding chamber. No poisons or bait needed. Safe to use around children, pets, and in FDA/USDA-inspected plants.

Pro-Ketch Low-Profile and Ketch-All—Galvanized steel traps use no chemicals, baits, or poisons; approved for use in USDA/FDA-inspected facilities. Low-profile 1VJR6 is designed for confined spaces.

SPRING-LOADED MOUSE TRAPS

Jawz—Plastic-based trap with bait well. Easy to set; reusable.

Little Bigfoot—Wood-based trap with heavy-duty spring and expanded adjustable trigger for greater sensitivity.

Plastic Snap-E—A preformed bait cup aids in baiting, reduces bait stealing, and attracts mice to the ideal strike bar location.

Heavy-Duty—Reusable trap squeezes to set. Includes bait cup. For disposal, squeeze again to open.

GLUE MOUSE TRAPS

Stick-All—Prebaited to attract mice and insects without poisons or dangerous chemicals. Keeps them out of sight.

Cold Temperature—Nontoxic glue is formulated to be effective in temps. as low as 0°F. Excellent for use in unheated garages, basements, and in commercial walk-in refrigerators.

Baited—5DK9 is prescored to fold for trapping and disposal. 5YAY1 nontoxic glue trays are prebaited with food-grade attractant. 11L633 adhesive traps also serve to monitor for insects.

Baited Mouse and Insect Boards—Nontoxic traps will not harden for 1 yr. under normal conditions. Perforated to tear off and place glue directly against baseboards to secure traps. Fold into tunnel shape for use in tight or dusty areas.

Pro Series Slim Multi-Catch—Narrow design can be placed in hard-to-reach areas where rodents travel. Use alone as a live trap, or add glue board 20YR50 (sold separately) to trap multiple mice.

Bulk Glue—Nontoxic glue is approved for use where pesticide use is prohibited or undesirable. Spreads easily in lower temperatures.

Rat Traps

SPRING-LOADED RAT TRAPS

Plastic Big Snap-E—A preformed bait cup aids in baiting, reduces bait stealing, and attracts rats to the ideal strike bar location.

Note: Can be used for both rats and mice.

Bigfoot—Heavy-duty spring and expanded adjustable trigger setting provide greater sensitivity.

Jawz—Heavy-duty plastic with strong spring for quick kills. Reusable. Set by hand or foot. Quick-release button. Includes bait holder.

Rat Snap Trap—Interlocking teeth snap making escape almost impossible. Reusable. Easy-to-use and set with no-touch disposal.

GLUE RAT TRAPS

Rat Glue Boards—Suitable for use on mice and other rodents. Indoor use.

Baited Glue Trap—Nontoxic formula. Included Hercules Putty helps prevent dragging.

Glue Board—Ready-to-use board is nontoxic, economical, and traps both mice and rats.
