

Bird Repellent Nets, Spikes, Gel, and Spray

Bird Nets and Clips—Seal off all structural openings to keep out birds and small animals.

Spikes Needle Strips, Kits, and Adhesive—Attach to any surface to permanently prevent birds from landing and roosting. Install with adhesive, sold separately.

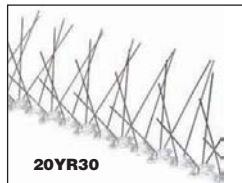

Birdproof Gel—Nontoxic formula deters all birds and helps prevent landing and roosting by creating a sticky surface. Apply with a caulking gun, indoors or out. Solvent removal. EPA Registered.

Repellent Spray—Goose repellent can be sprayed with agricultural or hand sprayer on turf, fruits, vegetables, fountains (without fish), pools, and building structures. Not harmful to plants or animals.

Bird Deterrents

Products are designed to avoid injury to humans, birds, or animals.

StealthNet—Ultrastrong, UV-resistant polyethylene netting provides an impenetrable barrier against sparrows, swallows, and other small birds. Black color. Custom sizes are available; call 1-800-GRAINGER (472-4643).

Bird-Flite—Thin stainless steel rods on a polycarbonate base repel pigeons and larger birds from signs, chimneys, security cameras, cut-outs, lights, pipes, and ledges. Glue or screw in place.

Dura-Spike—Blunt stainless steel spikes discourage pigeons and larger birds from landing and nesting. Flexible construction conforms to building features, such as ledges, parapets, pipes, chimneys, lights, etc. Cut to length and glue or screw in place.

Bird Coil—Expanding coils destabilize surfaces and discourage birds from landing. Kits include clips, end brackets, and other hardware or adhesive to attach to your specific substrate.

Daddy Long Legs—Device's stainless steel rods rotate and wave in the breeze, interfering with birds' wings as they try to land. Effective against gulls, pigeons, and larger birds. Plastic base screws into most surfaces.

Silent and Audible Bird Repellers

ULTRASONIC BIRD REPELLERS

Balcony Guard—Keeps birds away with continuous or motion-sensor operation. Weatherproof. 120V power or 4 C batteries (not included). Includes mounting kit.

Ultrason X—Ultrasonic sounds get rid of birds, bats, rodents, and more. Weatherproof. For indoor or outdoor use.

Quad Blaster—Ultrasonic sound waves attack birds and bats in any enclosed or semi-enclosed areas. For indoor use only. 3NZD2 includes red strobe light that acts as visual deterrent.

SONIC BIRD REPELLERS

Broadband PRO—Controls bird pests with ultrasonic and sonic signals. Has a series of species-specific distress cries and predators' noise. Includes 3 visual predators: Scare Eyes, Prowler Owl, and Irri-Tape. For indoor or outdoor use.

BirdXPeller Pro and Pro 2

—Bird distress sounds and predator noises are effective against targeted species. 6WB52 repels pigeons, starlings, sparrows, and gulls. 8DML0 repels grackles, blackbirds, crows, cormorants, and ravens.

Super BirdXPeller Pro and Pro 2—Use birds' own distress calls to scare them away. Include
