**Flyswatters and Insect Traps**

**Flyswatters**—Stiff plastic mesh head measures 5"W x 5".L.

**Flying Insect Glue Trap**—Adhesive trap has multibait attractant for common flour and grain moths.

**Fly Traps**—5YAY4 controls nuisance flies and also monitors fly populations to help determine when to treat. 5ZPK8 is a nontoxic, odorless and transparent sticky trap that mounts on indoor window panes to trap all types of flying insects. 8DF85 and 8CNR3 have a multibait attractant designed to lure multiple fly species. 8DF85 provides inconspicuous pest control. 8CNR3 features a fluorescent chartreuse color and double-sided surface area to trap

up to 10,000 flies. 45WP99 has a specially formulated lure designed to attract a broad range of flies. Just add water and hang. Features safety lock cap and leakproof design.

**Crawling Insect Glue Trap**—Ready to use for trapping crickets, roaches, spiders, and other crawling household pests.

**Bed Bug Prevention and Detection Monitors**—Help identify post-treatment activity. 6JHG3 is a cost-effective monitor with low-profile design ideal for tight spaces or behind bed boards. 36A149 provides easy visual inspection through the clear shell; for use under mattresses.
