Winch Cables and Winch Straps

Winch Cables—For use on manual and electric winches. Galvanized steel winch cables resist corrosion in demanding applications. Stainless steel winch cables are for use in corrosive environments. Steel winch cables have carbon steel wire construction.

Vehicle Tow Cable—Assembled with hooks at each end for easy use.

Corrosion-resistant. Includes hook-and-loop cable straps and forged hooks. Do not use for lifting. 2"W.

Vehicle Recovery Straps—Light polymer/nylon fabric eases storage and application. Cut- and abrasionproof straps are for use in all types of weather. Internal warning markers indicate when replacement is necessary.
