Bungee Cords and Hooks

EPDM Tarp Straps—For heavy-duty strapping jobs. Straps stretch to approximately 1 1/2 times their original length. Extra reinforcement at hook ends. Zinc-plated steel hooks.

Industrial Bungee Cords—Work well in most tarp applications and with heavier loads. Nylon-coated cords have hardened hooks with yellow dichromate finish.

Adjustable Bungee Cord—For light-duty bundling or tie-down assists. Safety

tab on polycarbonate hook prevents slipping out of tarp grommets. 1/4" dia. Length adjustable up to 36".

Bungee Cord Rolls—Multicolor bungee cords are general purpose. White cord is nylon-wrapped for greater durability

Bungee Hooks—Attach easily to make or repair cords. Includes clamping wire. Adjustable hooks require no tools to install. See hook descriptions for cord sizes.

Rope, Hook Ends, and Replacement Hooks

Solid Core Polyurethane Stretch Rope—Industrial strength, high-tech polyurethane stretch rope is a superior replacement to shock cord (no cloth or elastic) will not break, rot, or become brittle and maintains its stretch even under extreme weather conditions. Safely stretches two times its length. Make custom length bungee cords and cargo webs using the adjustable nylon hook ends.

Adjustable Nylon Hook Ends—Patented adjustable hook ends create safer and stronger custom bungee cords. Match hook sizes to rope size. 1/4" hook has a 102-lb. break rating, 5/16" has a 140-lb. break rating.

Triangular S-Hook Ends—0.188" (3/16") galvanized or stainless steel hook with triangular S end, made for safer strap. Galvanized break rating of 250 lb. Stainless steel break rating of 225 lb.

Rope Tie-Downs

Secure a wide variety of loads quickly and easily.

Rope Ratchets—Keep rope locked in place for a firm hold; no webbing or bungee cords required. Thumb-lever provides easy release. Ratchets are made of 33% glass-filled nylon with interior of die-cast zinc and stainless steel springs. Hooks are zinc-plated steel.
