Ratchet Pullers

Use to assist with efficient lifting, towing, pulling and tensioning. Large ratchet diameter with high tooth count permits accurate positioning of loads. Zinc plated, heat treated steel latch hooks resist corrosion.

CABLE PULLERS

- Meet ASME B30.21 Standards

Positive locking ratchet mechanism on Dayton models. Dual interlocking ratchet-drive design on Westward models that centers load stresses across unit for easier operation while lifting or pulling. Heavy-duty aircraft cable helps withstand high tension and heavy loads. 3/16" cable dia.; except 61LA34 is 1/4".

WEB PULLER

- Meets ASME B30.21 Standards

Dual interlocking ratchet drive mechanism for long-lasting durability in electrical utility work, construction, and industrial maintenance/repair operations. 1 1/8" W nylon strap.

ROPE PULLERS

Ideal for recovering vehicles, securing material to trucks, handling logs and stumps, moving boats and trailers, transporting furniture, and clearing debris. Single interlocking ratchet design. Can accommodate an unlimited length of 1/2" dia. rope.
