

1-800-GRAINGER (472-4643)

**Wall-Mounted Tie Rod**

**Wall-Mounted Cantilever**

**Wall-Mounted Full Cantilever**

## Jib Cranes and Mounting Kits

Cranes accommodate most standard trolleys that support electric or manual hoists. Anchor bolts not included. Mounting kits support hoists and trolleys (not included).

### WALL-MOUNTED

Rotate up to 180° in large applications. Up to 35-ft. span on tie rod style. Heavy-duty fittings made with roller bearings and zerk fitting for easy field lubrication. Easily mount to reinforced columns or walls. Include beam with end stops, fitting kit, and assembly hardware. Painted safety yellow.

### BASE-MOUNTED PILLARS

Rotate 360° on tapered roller bearings with self-aligning guide rollers. Heavy gussets reinforce base plates to ensure alignment and rigidity. Rolled steel, wide-flange beams provide smooth trolley travel, with stops at both ends. Concrete footing required.
