

Grade 30 Proof Coil Chains

Grade 43 High Test Chain

Grade 70 Transport Chain

Grade 80 Lifting Chain

Straight Chains

Grade 30 Coil—Constructed of low-carbon steel for light- to medium-duty use.

Grade 43 High Test—Steel chains have greater tensile strength than proof coil. Use as binder chains for securing loads.

Grade 70 Transport—High-strength, heat-treated chains offer durability for securing loads.

Grade 80 and 100 Lifting—Made from heat-treated alloy steel for overhead lifting and towing applications.
