## General Purpose Wheel Chocks

### RUBBER

**Molded Rubber**—Resist tearing, abrasion, and ozone weathering. 3W666 wedges both sides of wheel with two molded rubber chocks. Order one unit for each wheel. 22XW75 is made of recycled rubber for utility trucks and trailers. 1GUK4 to 1GUK6 feature a grooved surface. 1GUK7 to 1GUK9 are hollow and 3-sided.

**Molded Urethane**—Rubber pads grip pavement. Width of chock has molded open area for attaching security chain.

**Laminated Rubber**—Cord-reinforced serrated rubber on steel rods. Feature large handle.

### STEEL

**Heavy-Duty Steel**—Bottom teeth for maximum traction. With easy-grip slot for pickup and positioning. 1GUL3 includes 10-ft. chain.

**Formed Steel**—Long-life, all-weather chocks have saw tooth bottom. Include hole for attaching security chain and hanger.

### ALUMINUM

**Extruded Aluminum**—Serrated surface grips tire, and triple-edged bottom grips ground.

## Specialty Wheel Chocks

**Rail Car Wheel Chocks**—All-welded steel chocks for securing rail cars for safe loading and unloading. No. 22XW93 is sold as a pair.

**Heavy Duty Wheel Chocks**—Urethane construction made for mining and construction trucks. Will not cause tire damage. Oil- and chemical-resistant. Feature carrying handle.

**Aviation Wheel Chocks**—Impact-absorbing urethane construction. Oil- and chemical-resistant. Will not rot or splinter. Feature replaceable nylon rope lanyards.

**All-Terrain Urethane Wheel Chocks**—Oil- and chemical-resistant. For use with utility trucks and trailers. Urethane chocks are designed for fire trucks and all-terrain applications. Feature carrying handle. All-Terrain Urethane chocks comply with NFPA 1901-1909 and meet SAE-J348 Specifications.
