Corrosion-Resistant Wire Shelf and Utility Carts

Constructed of stainless steel or a combination of stainless steel and chrome to resist rusting when used in areas where they will be exposed to frequent cleaning, washdown, or other corrosive materials. Wire shelves have a shallow lip for easy loading and unloading of items. Shelf height is adjustable in 1" increments to accommodate different sizes of items. All have 4 swivel casters, except as noted.

Wire Shelf and Utility Cart Covers

Covers fit over carts to protect their contents from dust and other airborne particles. They also conceal the carts' contents to maintain an attractive appearance and deter theft or tampering. **Hook-and-loop** closure fastens and unfastens quickly. **Zipper** closure is more secure than hook-and-loop closure. **Blue nylon** covers are made from waterproof, fire-retardant vinyl-coated nylon fabric, which resists tearing, mildew, and odors. **White vinyl** covers resist tears and are antimicrobial, which means they inhibit the growth of bacteria and other organisms that can cause odors and stains.

| Overall Length | Overall Width | Overall Height | BLUE NYLON Item No. | WHITE VINYL Item No. |

Wire Shelf and Utility Carts with Angled Shelves

Angled wire shelves provide easier visibility to items. Gravity moves items at the back forward, when items at the front are removed. Shelves have a short lip on one side and a tall lip on the other side that prevent items from falling off. Shelves can be reversed to put either the short or tall lip at the front. Shelf height is adjustable in 1" increments to fit different sizes of items. All have four shelves and four swivel casters (two of the casters have brakes).

Wire Shelf and Utility Cart with Removable Basket Shelves

Cart has two removable wire baskets that sit on the shelves and hold loose items. Shelves have a short lip that prevents the baskets from sliding off. A hanger rod holds clothing or other hanging items. Shelf height is adjustable in 1" increments to accommodate different sizes of items. Two swivel and two rigid casters.
