## Self-Dumping Steel Hoppers

- Red powder-coat finish on hopper, black base

### HOPPERS

Automatically dump loads when locking latch is released, then return to locked position. Constructed with precision robotic weld; base is formed steel. Safety chain secures hopper to fork truck, while cable enables dumping from fork truck seat.

### Low-Profile

Feature a 90° dump angle and half-length fork entry. Hoppers return

to locked position when lowered to ground.

### Front-Release

Bumper dumps hopper a minimum of 70° when activated. Full-length fork entry. Predrilled for caster kit.

### OPTIONAL CASTER KITS

Casters are field installable with hardware included. Include 2 rigid and 2 swivel casters. Intended for use on front-release hoppers only.

## Self-Dumping Poly Hoppers

- Dump up to 40° below horizontal
- All-welded steel framework
- Bumper release

Seamless, molded polyethylene bodies are supported by steel tubular frames.

Hoppers with casters have 2 swivel, 2 rigid casters. Hoppers without casters are forklift capable for elevated dumping and mobility.
