## Work-Height Wooden-Deck Platform Trucks

Work-height wooden-deck platform trucks have high decks that minimize lifting and bending when moving items between the trucks and high surfaces such as storage racks, work tables, conveyors, or receiving stations. All have two swivel and two rigid casters.

## General Purpose Plastic-Deck Platform Trucks

Plastic decks resist damage from impacts and exposure to chemicals and moisture. Trucks have a high strength-to-weight ratio and are used in settings such as retail stores, warehouses, construction sites, and manufacturing facilities. All have two swivel and two rigid casters unless noted otherwise. **Single-end** trucks have one handle. **Dual-end** trucks have two handles.

## Load-Securing Plastic-Deck Platform Trucks

- 2 rigid/2 swivel casters
- Trucks w/ E-track fittings have brake
- 40AL31 is red; all others are black

Load-securing plastic-deck platform trucks have either built-in E-track fittings or removable side panels. **E-track fittings** provide anchor points for attaching compatible straps (sold separately on page 1063) to tie down large or bulky items. They can also be used with compatible mini-straps to connect multiple trucks together to create a larger truck. **Side panels** install onto all sides of the trucks' deck to keep items from falling off while the trucks are moving. They can be removed to facilitate loading and unloading.

2,000 lb	48 in	24 in	8 in	41 in	8 in	Polyolefin	Rubbermaid 4AAN1

## Plastic-Deck Platform Trucks with Compact Folding Handles

Handles fold down to save space when not in use. Used in applications where trucks will be taken to different jobsites or where there is minimal space for storing the trucks. All have a solid deck with ribbed surface as well as two swivel casters and two rigid casters.

2TUT6

Load Capacity	Deck Length	Deck Width	Deck Height	Overall Height	Caster Wheel/Tread Material	Item No.
330 lb	28 in	18 in	6 in	36 in	Rubber	2TUT3 *

	36 in	23 1/2 in	8 in	38 in	Rubber	2TUT6

\* Includes locking foot brake.

## Nestable Plastic-Deck Platform Trucks

Nestable platform trucks have slanted, tapered decks that can raise in the back to allow multiple trucks to be pushed together to save space when not in use. All have a solid plastic deck with ribbed surface.
