

Dockplates, Dockboards, and Container Ramps

Aluminum Dockplates—Nonskid tread plate. Zinc-plated handle or hand-holds on each side. Locking legs secure dockplate when in use.

Aluminum Fork Truck Dockboards with Aluminum Curbs—Handle higher load capacities than dockplates. Feature safety curbs. Positive traction treadplate with beveled entrance and exit lip. Legs allow easy fork truck positioning and secure dockboard when in use, for OSHA compliance. When using 3-wheeled fork truck, order dockboard with capacity at least four times the lifting capacity of the fork truck.

15,000 lb	59 ¾ in	60 in	7 in to 10 in	—	6XW90

Aluminum Fork Truck Dockboards with Steel Curbs—Structural steel safety curbs are bolted to each side of dockboard. When using 3-wheeled fork truck, order dockboard with capacity at least four times the lifting capacity of the fork truck.

Aluminum Hand Truck Dockboards—Use with 2-wheel hand trucks only. Diamond tread surface and beveled edges. Bolted locking legs for OSHA compliance.

Container Ramps—For fast loading and unloading at ground level. Eliminate the need for queuing.

Polyethylene Dockplates—Designed for light-duty applications. Integrated guardrails and handles. Hardware included. Meet OSHA 1910.30(a).

Steel Fork Truck Dockboards with Steel Curbs—Lever lift mechanism raises front edge of dockboard off the ground to allow for one-person operation. Lever automatically falls to rest position as dockboard is lifted. When using 3-wheeled fork truck, select capacity +20% greater than the lifting capacity of the fork truck.

Aluminum Walk Ramps

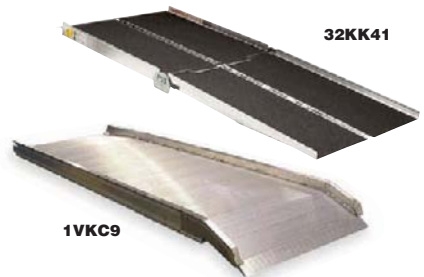

■ Nonskid surfaces

1VKC9 and 1VKD1 to 1VKD8 have 3¼" H curb. 1FC73 to 1FC75 have 4¼" H side rails to keep load safety on ramp. Two 36" L safety chains hold ramp in place.

Note: Ramps are designed for use with hand trucks. Do not use with powered equipment or pallet jacks.
