## 1-800-GRAINGER (472-4643)

# MATERIAL HANDLING **General Purpose Hand Trucks**

#### Features

Hand Truck Nose

Plate Extension

11 in x 31 in 12 in x 27 in

Easy-load hand trucks have nose plates with bevels or other features that help them slide under loads.

Easy-load and tilt hand trucks have foot kicks that let users push the bottom of the trucks forward as they tilt the trucks back, which makes it easier to start loaded trucks rolling. They also have nose plates with bevels or other features that help them slide under loads.

Ergonomic tilt-back hand trucks have two casters mounted on a rear frame extension that help support the hand trucks when tilted back.

# Hand Truck Information

Extended folding nose hand trucks have an extension that increases the length of their nose plate and folds up to save space when not in use.

Foot assist hand trucks have foot kicks that let users push the bottom of the trucks forward as they tilt the trucks back, which makes it easier to start loaded trucks rolling.

Load protectors prevent a hand truck's wheels from rubbing against items on the truck and damaging them.

Modular hand trucks allow users to replace parts of the hand trucks as they become worn or damaged.

Narrow hand trucks have a slim profile and can maneuver better in tight spaces than wider hand trucks

Stair climbers help the trucks roll smoothly over stairs and curbs.

Welded hand trucks feature welded construction and are not modular.

Wheel fenders cover the front of the hand trucks' wheels to prevent damage to items on the trucks.

### **Materials**

Steel hand trucks are the standard option and are suitable for a wide range of applications.

Aluminum hand trucks weigh less than steel or stainless steel hand trucks and will not rust when used in damp or wet environments.

Nylon hand trucks are made from glass-filled nylon. They weigh less than aluminum or steel hand trucks and will not rust when used in damp or wet environments.

Stainless steel hand trucks will not rust when exposed to water, cleaning chemicals, and other corrosives.

#### Davton **40 General Purpose Hand Trucks**

Feature steel frames and nose plates. Suitable for moving heavy loads in a wide range of tasks.

### ACCESSORIES

Hand Truck Nose Plate is for replacement or addition to existing hand truck.

Hand Truck Nose Plate Extensions can be used to increase the length and/or width of the existing noseplate to hold larger or bulkier items.
