Powered 2-Position Aluminum Convertible Hand Trucks

Battery-powered motor reduces effort when moving heavy loads. Lowering the motor throttle activates a braking mechanism that slows the trucks on ramps and inclines, and the trucks stop rolling when the throttle is at zero. Can be used as an upright two-wheel hand truck or a horizontal four-wheel platform truck. Include rechargeable battery pack and charger.

Extra-Versatile 4-Position Convertible Hand Trucks

Can be used as an upright hand truck, a platform truck, a U-boat truck, and a dolly. Frame extends in all positions to accommodate a wide range of items. Steel frame and nose plate. Used in maintenance, warehouse, storage facility, contractor, live performance, HVAC, delivery, and trade show applications. Include stair climbers.
