Adaptable-Design Utility Carts with Deep Lipped Plastic Shelves

Adaptable-design utility carts can be reconfigured for different tasks. The carts' ergonomic handle can be repositioned to improve operator comfort. A flip-up shelf provides a flat work surface without having to rearrange items on the top shelf. Tool-holding slots, snap hooks, and other storage features keep items organized on the carts. V-notch holds pipe or conduit during cutting. The carts' shelves have a tall lip that contains spills and stops items from sliding off the shelves. All have two locking swivel casters and two rigid casters. Assembly required.

Load Capacity	Shelf Length	Shelf Width	Overall Length	Overall Width	Overall Height	Distance Between Shelves	Shelf Color	Item No.
500 lb	44 in	17 in	46 1/2 in	18 in	36 in	20 in	Black	406R89
	48 in	25 in	51 1/2 in	25 1/2 in	36 in	22 in	Black	406R91

Utility Carts with Flip-Gate Flush Plastic Shelves

The shelves on these carts have hinged sides that flip up to create a lip that stops items from falling off them or flip down to create a flush surface that lets items slide onto or off of the shelves during loading or unloading. The carts' I-shaped support posts provide unobstructed access to the bottom shelf. All have two swivel casters with brake and 2 rigid casters.

Load Capacity	Shelf Length	Shelf Width	Overall Length	Overall Width	Overall Height	Item No.
400 lb	28 in	17 in	42 in	19 in	34 in	5YM99
	32 in	22 in	46 in	24 in	34 in	4YT95

Nestable Utility Carts with Perforated Lipped Plastic Shelves

These utility carts nest together to save space when storing the carts. The carts' perforated plastic shelves let liquids, dirt, and debris fall through them, which helps keep the shelves clean when the carts are used in dirty or wet areas. The shelves have a short lip that stops items from sliding off them. All have two swivel and two rigid casters.

Convertible Utility Carts with Flush Plastic Shelf and Platform

The top shelf on this cart folds down to convert it to a solid-back platform truck so it can carry items that would be too large to fit on it when the top shelf is in place. The shelf and platform are flush, which lets items slide onto or off of them during loading and unloading. The platform has a 250-lb. capacity. The cart has four swivel casters, two of which are locking. Ships assembled.

Load Capacity	Shelf Length	Shelf Width	Overall Length	Overall Width	Overall Height	Item No.
