

Box Truck Side Panel Information

Expanded-metal side panels have openings that allow air to circulate through the trucks. **Solid** side panels prevent small objects from falling out of the trucks.

Drop-Gate & Raised-Platform Box Trucks

These box trucks have features that reduce effort when loading and unloading the trucks. All have two swivel casters and two rigid casters, except as noted.

Drop-gate trucks have one side wall that folds down halfway to reduce how far items have to be lifted to get them over the wall. **Open-sided** trucks do not have a wall on one side of their container, which lets users slide heavy objects into or out of the container. **Raised-platform** trucks have a platform that elevates the trucks' container to reduce bending and straining when reaching into the container.

Easy-Drain Dual-Handle Cube Trucks

- 53"L x 31"W x 38"H
- 1000-lb. load capacity

These cube trucks have built-in drain for easy cleaning and two handles that allow them to be steered from either side. The handles can hold spray bottles, liners, and other cleaning supplies. The trucks' handles and body are made from break-resistant plastic, and their casters are attached with tamper-resistant mounts. Suitable for use in correctional facilities.

Security Box Trucks with Hinged Lid

Security box trucks have a hinged lid that can be closed and locked with a padlock to prevent theft and vandalism of the trucks' contents. All have two swivel and two rigid casters. **Drop-gate** trucks have one side wall that folds down halfway to reduce how far items have to be lifted to get them over the wall.
