

Heat-Resistant Nylon Tread 406P64 5VF22

## **Nylon Tread Wheels**

**Ergonomic** 

490V04

Wheels are hard, lightweight, and will not mark floors. Withstand exposure to solvents, corrosive environments, and temperature extremes; not recommended for heavily acidic or basic environments. Can be steam cleaned and will not chunk or separate. **Ergonomic** wheels roll smoothly and provide very low resistance to rolling and swiveling. **Heat-resistant** wheels are made from reinforce nylon and withstand exposure to very high temperatures. **Wheels for pallet jacks** are sized to fit pallet jacks and can carry heavy loads for their size.

Iron Tread Hea

Heat-Resistant Iron Tread 55GZ65

## **Metal Tread Wheels**

Wheels offer high weight capacities and withstand shock, abrasion, impact, rough use, and exposure to temperature extremes. Suitable for moving heavy loads over rough terrain. Tread and core are made from the same material. Iron wheels withstand exposure to corrosive chemicals, grease, and oils better than steel. Steel wheels can bear heavier loads than iron wheels. Heat-resistant wheels have double-shielded maintenance-free bearings and an enamel coating that allows the wheels to withstand exposure to very high temperatures.
