

Heavy-Duty Open and Closed Shelving

- 14-ga. posts; 18-ga. shelves

Shelves are box-formed at front and rear, with triple-flanged sides and welded corners for maximum strength. Beaded front post allows use of full shelf width. Angle back posts bolt together when adding units; quick, easy assembly.

ACCESSORIES FOR CLOSED SHELVING

Vertical Shelf Dividers—Clip into shelves using nylon fasteners to provide additional organization.

Double Swinging Doors—Create cabinet-like storage. Include chrome-finish handle with built-in cylinder key lock for 3-pt. positive locking.

Closed Base Strips—Close the gap between floor and bottom shelf to prevent dirt and debris from accumulating under shelving.

STANDALONE SHELVING

- Intermediate shelves adjust in 1½" increments
 - Steel shelves, gray powder-coated finish
- Durable shelving provides adjustable storage with access from all four sides. Top and bottom shelves are triple-flanged on all sides and bolted for maximum strength and stability. Units include four angle posts.
