

1-800-GRAINGER (472-4643)

Spill-Containment Medium-Duty Open Metal Shelving

- 84" overall height
- 16-ga. posts and shelves

Lipped solid shelves contain spills or leaks to help prevent contamination of items or surfaces below them, making these units suitable for storing small containers of liquids in industrial areas. Include braces that bolt to their posts to stabilize them and help prevent swaying. Clips anchor and support the shelves on their posts, and the clips can be moved to adjust the height of the shelves on the posts.

4UEC2

Heavy-Duty H-Post Metal Shelving

- 14-ga. posts
- Shelves adjust in 1 1/2" increments
- Powder-coated finish

High-capacity H-posts allow use of full shelf width and are common between adjoining units to reduce cost, and assembly and installation time. Shelves are box-formed at front and back with triple-flanged sides for added strength. Included compression shelf clips add to overall unit capacity.

Hallowell

Open shelving includes sway braces and closed shelving includes 18-ga. side, and 24-ga. back panels for enhanced stability.
