

Mobile Medical Supply Cabinets

■ Taupe

Cabinets have 4 swivel casters enabling them to be easily rolled to any location needed. Sturdy polymer construction with an antimicrobial treatment to prevent the growth of mold, mildew, and other microbes.

Catheter cabinets use hooks, slides, and shelves to hold catheters and keep them organized. Slides extend to allow catheters to be easily viewed for inventory control. Doors have keyed locks.

Wall-Mount Medical Supply Cabinets

Can be mounted to a wall to keep floor space clear or installed above workstations, desks, sinks, and other areas to keep stored items close to where they are needed. Designed to hold supplies, medications, and other healthcare items. Used for shared storage in settings such as hospitals, doctor's offices, clinics, and nursing homes.

Corrosion-resistant cabinet is stainless steel to resist rusting in damp or humid areas. Clearview door panes allow visibility to contents.

Compact cabinets are designed for use in tight spaces. 53JXF44 has a fold-down door. 53JX45 has a

right-hinge door with a window to view contents. 53JX46 has a solid door.

High security cabinets provide additional security to help prevent theft or loss of medications and other controlled substances. Doors have double locks or electronic keypad locks.

Antimicrobial cabinets have sturdy polymer construction and are treated to prevent the growth of mold, mildew, and other microbes. Will not rust when used in damp or humid areas. 24X105 has a single left-hinge door. 24X107 has a roll-up door for tight spaces. 24X106 has 2 center-closing doors.
