

## Hanging Bin Cabinets

Sturdy steel cabinets have louvered panels that hold multiple rows of plastic bins for separating and organizing parts, tools, and other items for quick access. Bins are removable making them easy to refill or carry to another location. Use for shared storage in garages, supply rooms, and warehouses.

**Flush doors** have louvered panels to hang bins on the door's interior side for additional storage.

**Ventilated doors** have metal-mesh panes that allow air to circulate and prevent buildup of moisture and fumes. Gives visibility to cabinet contents, to aid in loss prevention and inventory management.

**Solid doors** fully conceal contents and do not have louvered panels to hang bins.

**Deep Box doors** have extra depth for strength and rigidity. Louvered panels on the door allow hanging larger bins for additional storage.

**Clearview doors** have a see-through pane allowing full visibility to contents. Electronic keypad provides security and controls access.

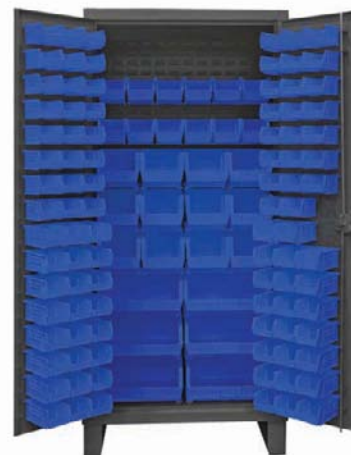

Overall Height	Overall Width	Overall Depth	No. of Bins	►CHOOSE: Bin Color	Door Type	Cabinet Color	Brand	Item No.
