## Stationary Pick Racks

- 36"W
- Gray steel frames

Sturdy freestanding racks have sloped shelving to hold multiple rows of plastic bins. Angled shelves keep items at the front of the bin for clear visibility and easy access to contents.

**1-Sided**—Units can stand flat against a wall to save space.

**2-Sided**—Units have shelves on both sides for more storage capacity and to allow access to items from either side.

**Drawer Bins**—Drawer-style bins with four walls of equal height to keep items securely contained. Drawers can be easily removed to refill or carry to another location.

**Shelf Bins**—Raised front opening keeps items contained while allowing easy access. Stackable.

**Without Bins**—Order bins separately to select the desired color, style, and quantity of compatible bins for specific applications.

## Mobile Pick Racks

- 36"W
- Gray steel frames

Racks are mounted on four casters so they can easily move from one location to another. Ideal when items are used in multiple areas of a facility or floor plans change frequently. Racks are 2-sided with shelves on both sides to allow access to items from either side.

**Drawer Bins**—Drawer-style bins have four walls of equal height to keep items securely contained. Drawers can be easily removed to refill or carry to another location.

**Shelf Bins**—Raised front opening keeps items contained while allowing easy access. Stackable.
