

## Suitcase-Style Equipment Cases

PELICAN™

NANUK™  
PROFESSIONAL PROTECTIVE CASES

Protect valuable instruments, tools, and equipment from impact, dust, and liquids. Side-hinged opening and carrying handles make cases easy to load and transport.

Cases with wheels have handles for pulling, making it easier to move heavy items.

Order cases with foam to cushion and minimize movement of items in transport.

**Heavy-Duty**—Pelican Storm Series cases are constructed of strong HPX resin and withstand harsh conditions. Press and Pull latches lock automatically, but open with a light touch. Waterproof and crushproof with double-layered, soft-grip handles.

**Lightweight**—Pelican Air Series cases are made of extra light HPX polymer and are extremely water resistant. Automatic pressure equalization valve balances interior air pressure and keeps water out. Fold-down overmolded handles and stainless steel padlock protectors.

**Standard**—Pelican Protector Series cases are injection molded making them strong, yet lightweight. Automatic pressure equalization valve balances interior air pressure and keeps water out - ideal for flying or using at high altitudes. **Nanuk** cases are made with a tough, waterproof resin shell and have PowerClaw latches to keep case securely closed. Soft grip ergonomic handles.

**Lightweight Case  
with No Wheels**  
52PF73

**Standard Case  
with 2 Wheels**
