WESTWARD

STANLEY

Storage Trunks

Large capacities accommodate heavy tools, gear, and equipment and protect them during storage or transport.

Westward trunks have aluminum construction with steel hinges. Front latches and side handles.

Stanley trunks are plastic with side latches to secure lids. 2 wheels and an extendable handle make them easy to pull from one location to another.

PELICAN

SKB

NANUK

Protective Transport Cases

- Waterproof
- Impact resistant
- Folding handle, except where noted

Rugged exteriors protect against drops and impacts, and big interiors hold large quantities of items or bulky, heavy equipment. Ideal for shipping on truck beds or in airplane cargo holds. Cases with wheels have handles for pulling, making it easier to move heavy items.

Order cases with foam to cushion and minimize movement of items in transport.

Pelican—Protector Series cases are built to withstand extreme weather and harsh environments. Integrated pull handles and easy-to-open double throw latches. Automatic pressure equalization valve makes them ideal for use when flying.

SKB—Constructed of tough polypropylene resin with molded pull handles and trigger release latch system for secure lid closure.

Nanuk—Rugged resin shell with PowerClaw latches to keep lid securely closed.
