

Athletic and Tactical Gear Lockers

▪ Rugged steel construction
Lockers have large storage compartments that hold bulky protective gear, uniforms, and other equipment. Suitable for personal storage in sporting facilities, firehouses, police stations, and military training facilities.

Open-front ventilated lockers provide easy access and visibility to all items. Ventilated sides.

Modular solid lockers have louvered back panels that accept hooks and other compatible accessories to customize the storage space. Solid doors. Include padlock hasp.

Ventilated lockers have metal mesh door panels. Include padlock hasp.

Mobile-Device Lockers

- Powder-coated finish
- Units are assembled; unassembled units available on Grainger.com

Sized to hold and secure personal electronic devices. Typically installed in offices, hotels, and other public facilities.

Surface-mount lockers can be mounted on a wall or flat surface. Multiple tiers of individual lockers are arranged vertically.

Wiring-ready full-height lockers have built-in channels with knockouts in each locker allowing wire to be run so lockers can serve as charging stations. Multiple tiers of individual lockers securely hold laptops and small electronic devices.

Electronic Keypad locks are battery-operated with a 4-digit code required for access. Can be set to day-use or permanent-use mode. Low battery indicator with mechanical master key override.

Keyed locks come with master keys to access all compartments.

Combination locks are built-in and can be set to a fixed combination or combination can be reset after each use.
