## Slatwall Panel & Accessory Kits

Slatwall panels and racks have long horizontal grooves, or slats, and provide a more finished look than pegboard. Kits include 12" x 48" slatwall panels that mount to a wall and compatible accessories to create a storage system.

## Slatwall Merchandiser Racks

These freestanding racks have slatwall on all sides and do not need to be mounted to a wall. Items can be stored and accessed on all sides of the racks, which allows for high-density display of merchandise in a compact footprint. These racks accept a wide range of hooks, shelves, and other accessories that are compatible with slatwall. They are used for organizing and displaying merchandise in retail stores. Constructed of medium-density fiberboard and melamine.
