## Stationary Bin Rail Racks

- Gray steel frames

Freestanding frames have horizontal steel rails for hanging rows of compatible bins to store and organize small parts and items for easy access. Rail racks can accommodate bins of different depths and sizes on each rail offering flexibility as storage needs change.

**1-Sided**—Units can stand flat against a wall to save space.

**2-Sided**—Bins can hang on both sides of rail for more storage capacity and to allow access to items from either side.

**Without Bins**—Order bins separately to select the desired color, style, and quantity of compatible bins for specific applications.

## Mobile Bin Rail Racks

- 2-sided
- Hang and stack bins included
- Gray steel frames

Racks are mounted on four casters so they can be easily moved from one location to another. Ideal when items are used in multiple areas of a facility or floor plans change frequently. Sturdy frames have horizontal steel rails for hanging rows of compatible bins to store and organize small parts and items for easy access. Bins can hang from both sides of the rail to allow access to items from either side.
