Fire-Resistant File Cabinets

High-security Medeco key locks resist picking and drilling. UL Class 350 1-hr. fire rating with impact.

VERTICAL AND LATERAL FILE CABINETS

Fire-resistant insulation is 100% gypsum reinforced by a 1" x 2" lattice of 14-ga. galvanized welded-steel wire. Insulation is placed between each drawer to make each a separate fire-resistant container. Scratch-resistant and environmentally-friendly powder-coated finish. Drawer bodies have high sides for hanging files; no additional frames are required.

Safe-In-A-File vertical file cabinets conceal a 2.4 cu. ft. burglary-resistant safe behind a false-top drawer panel.

STORAGE CABINETS

Accommodate oversized documents, binders, or any other valuable items.
