Clearview Hopper Bins

▪ **Stackable**
Large sturdy bulk bins can store or transport heavy, odd-shaped, and surplus items. See-through sides give full visibility to contents. Open hopper fronts provide quick access, built-in side grips for carrying, and extra-wide sidewalls for stacking.

Clearview bins are helpful in applications where quick identification of contents is needed, such as healthcare supply closets, manufacturing facilities, and workshops.

Rolling bins have casters making it easy to move large, bulky items.

Colored Giant Hopper Bins

▪ **Stackable**
Large sturdy plastic bins have high load capacities to store or transport heavy, odd-shaped, and surplus items. Open hopper fronts provide quick access to contents, built-in side grips for carrying, and extra-wide sidewalls for stacking. Solid color bins can create color-coded storage systems to

separate and distinguish items housed in the same area, such as tools and parts in workshops, electrical and plumbing supplies in maintenance closets, and hazardous and nonhazardous materials in medical environments.

Rolling bins have casters to easily move large or heavy items to another location.
