Collapsible Wire Bulk Containers

- 4-way fork entry
- 1 drop door

Hold items that may leak, need to dry, or can't be stored in closed containers. Open steel wire mesh design allows for clear visibility to contents and lets air and liquids pass through. Fold down and can be stacked when not in use to save space. Commonly used in shipping, manufacturing, and warehouses.

Mobile containers are mounted on 4 casters, 2 rigid and 2 swivel, to easily move container to any location in a facility.

Stackable Bulk Containers with Lids

- Molded in pockets for fork entry

Sturdy plastic containers are water and chemical resistant. Include removable lids that securely attach to the container's rim to cover, conceal, and protect contents from dust and debris.
