Drop Door

**Solid Steel Bulk Containers**

- 4-way fork entry
- 4000-lb load capacity
- 4000-lb stacking capacity
- Green enamel finish

Built to withstand the weight and potential damage from heavy loads. Commonly used in warehouses, manufacturing, and machine shops to store and transport heavy items like metal scraps, machine parts, and maintenance equipment.

**2MVU5** and **4TJ24** are collapsible with sides that easily fold down for storage and slide up and lock in place when needed. **2MVU5** has solid steel sides and bottom. **4TJ24** has wire mesh sides and bottom for ventilation.

**4TJ19** through **4TJ22** have a wide adjustable side door that opens to a tray position for easy access to contents.

**4TJ25** and **4TJ26** have rounded corners and steel stacking legs.

**ASM Insulated Bulk Containers**

- Molded-in pockets for fork entry
- 2000-lb load capacity
- Blue color
- Meet FDA standards

Designed to transport temperature-sensitive items such as dry ice, food, drinks, chemicals, pharmaceutical, and healthcare products. Molded polyethylene construction with polyurethane foam insulation. Squared interior corners maximize utilization of interior space.

**Removable lids** make loading and unloading containers easy and have tie downs for secure attachment.

**Hinged lids** have a rubber latching system for secure hold.
