

1-800-GRAINGER (472-4643)

**Four-Wall Unassembled**

**Three-Wall Unassembled**

**Two-Wall Unassembled**

**Four-Wall Assembled**

**Modular In-Plant Offices**

- Include wall panels, connecting posts, framing, and hardware
- Heavy-duty swing door with large vision lite
- Panels have Class A fire rating

Provide enclosed work areas inside warehouses, manufacturing plants, office buildings, and other large commercial and industrial facilities. Can be moved or reconfigured as floor plans change.

Note: PE-stamped drawings are not included; call 1-800-GRAINGER (472-4643). Before purchasing, consult your local building department for applicable code requirements. Consult an electrician for all electrical installations.

**UNASSEMBLED**

Easy to assemble and can be modified at any time. 2- and 3-wall units are designed to attach to existing walls; 4-wall units are freestanding. Outlets/switches include boxes and devices to install as needed in connecting posts; no wire included. Steel/Vinyl covered panels have steel facing on the exterior and vinyl facing on the interior. Vinyl covered panels feature vinyl facing on both sides.

Please choose: White, Gray

**ASSEMBLED**

Freestanding 4-wall units can be installed anywhere in large commercial or industrial facilities. Offices ship assembled and are prewired for easy set up. Can be lifted with a forklift or crane to position them in the facility.

**ALL OFFICES INCLUDE:**

- All wall panels, connecting posts, framing, and hardware
- Heavy-duty swing door with large vision lite that aesthetically matches posts, wall panels, and framing
- Panels have a Class A fire rating
- Outlets/switches include boxes and devices; install as needed in connecting posts; no wire included

Note: PE-stamped drawings are not included; call 1-800-GRAINGER (472-4643). Before purchasing, consult your local building department for applicable code requirements. Consult an electrician for all electrical installations.
