Lab Workbenches

- 1000-lb. capacity, based on evenly distributed loads
 - Light beige, powder-coated finish
- Workbenches have a sturdy 4-leg design with 4" front, side, and back rails to support the work surface and allow operators to work on all 4 sides. Squared work surfaces allow units to be slid together with no gaps. Modular design allows optional accessories to easily bolt on. See Grainger.com® for available accessories.

Stainless Steel Workbench 1NX8

Chem-Guard®—Black chemical-resistant work surface is 1.250" thick.

Stainless Steel—Work surface is 16-ga. with 0.125" radius edges.
