Standard Copy and Printer Paper

Multipurpose Paper—Multipurpose paper can be used in copiers, laser printers, and plain paper fax machines. Its versatility makes it suitable for small business owners sending and processing work orders, invoices, estimates, and receipts.

Laser Paper—Withstands the high-heat process required to fuse powdered ink, or toner, in place via laser printing. Laser paper produces high-quality color images and text on documents such as design proposals, photographs, flyers, and brochures.

Inkjet Paper—Features high surface strength and even porosity to absorb the liquid ink used in inkjet printing processes. Its structure keeps wet ink from spreading and produces crisp lines for high-quality text and images.

15U666

Glossy Finish Photo Paper

Offers a bright photo finish with vibrant white color. This paper is thicker and denser than standard paper, allowing it to absorb ink for high-quality photos and color images. It also dries quickly, which reduces wait times when producing presentation documents and portfolio images.

Paper Size Name	Sheet Size	Paper Weight	Item No.	Pkg. Qty.
A6	4 in x 6 in	11 mil	15U664	100
