## Foot-Operated Bottom Carton Staplers

Foot-operated bottom carton staplers have a built-in stand. A box is placed into the stand and the foot-operated stapler seals the bottom of the box. These staplers are commonly used in high-volume packaging applications.

**Manual Foot-Operated**—Staplers operate when pressure is applied using a foot pedal to activate the stapler arm, sealing the carton with each step.

**Pneumatic Foot-Operated**—Staplers operate when pressure is applied using a foot pedal, engaging an air hose, applying air pressure to seal the stapler.

## Carton Staples

Staples are used with Kihlberg carton staplers to seal packages for shipping or storage. Staple sticks are commonly used for medium-volume applications and staple rolls are commonly used for higher volume applications.

## Manual Hand-Operated Carton Stapler

Stapler requires a lever to be pressed in order to seal the staple. Commonly used for stapling in low-volume applications.

For Crown Style	Compatible Staples	For Staple Leg Length	Staple Cap.	Weight	For Box Wall Type	Mfr. Model	Item No.
C	C 1 1/4" x 3/8" to 3/4"	3/8", 3/4"	150	3.5 lb	Single/Double Wall	C561M	56JJ20

**JOSEF KIHLEBERG**

## Battery-Operated Carton Stapler

This stapler causes less strain than manual-operated staplers. It can be taken anywhere in a facility and used for high-volume applications without the need for a pneumatic air hose.

For Crown Style	Compatible Staples	For Staple Leg Length	Staple Cap.	Weight	For Box Wall Type	Mfr. Model	Item No.
C	JK561, C, 32	3/8", 3/4"	150	6.0 lb	Single/Double Wall	C561B	56JJ22

**JOSEF KIHLEBERG**

## Pneumatic Hand-Operated Carton Staplers

Staplers use button-operated air pressure to seal staples. They use an air hose and compressor and are commonly used for stapling in high-volume applications.

## Wide-Crown Pneumatic Plier Staplers

Staplers are used to staple large applications such as furniture packaging or to connect edge protectors. These staplers have sideways movement capability.
