## Bedspreads and Blankets

Long lasting 100% cotton leno weave thermal blankets provide natural warmth and softness. Blankets are preshrunk and have colorfast dye.  
 Lightweight, soft fleece blankets have an anti-pill finish for long term use. Made of 100% spun polyester.

## Pillows

### SURE CHECK

Self-deodorizing, nonallergenic, and flame-retardant pillows have thousands of microscopic vents covering the entire pillow. These vents help destroy bacteria by allowing fresh air to flow through the pillow.

### GOLD CHOICE

The poly-cotton ticking with extra hollow siliconized fiber fill of these pillows provides ideal comfort and support.

### MICROVENT SOFT

Durable without sacrificing comfort, the microscopic air vents as well as an antibacterial, antistatic, flame-retardant, and fluidproof finish make these pillows an ideal choice for healthcare facilities.

### MICRO DENIER

Soft micro fiber filling provides a down-like feel using blown polyester. Pillows have a 100% cotton T230 ticking with piped edges.

### MARTEX BRENTWOOD

Cluster fiber pillows have a down-like softness and are easy care. Soft and comfortable microcluster polyester fiber fill with polyester/cotton cover.

### COMFOREL

The 100% cotton T230 ticking with piped edges and cluster fiber fill provide both comfort and support. The hypoallergenic and antimicrobial protection inhibits a variety of odor causing molds, bacteria, and funguses. Washable.

### ECOPURE

Soft, warm, and comfortable fiber fill reprocessed as a recycled, environmentally friendly product with cotton cover.
