**Polypropylene Strapping Kits**

These kits include a selection of items that work together to hold, store, transport, tension, and seal polypropylene strapping. Polypropylene strapping, sometimes called poly strapping, is a lightweight strap used to bundle newspapers, seal and bundle cartons, and secure light loads. The embossed surface makes the strapping flexible to make it easier to bend the strapping around edges and irregular shapes.

**Strapping, Tensioner, and Buckles**—Strapping is wrapped around a bundle and tightened with a tensioner tool. The ends of the strapping are wrapped around the buckle and tightened manually.

**Strapping, Tensioner, Sealer, and Seals**—These items work together to perform all the tasks required to strap and secure strapping. Pull the strapping tight using a tensioner, then use a sealing tool to secure a seal that ensures strapping does not come loose.

**Strapping and Seals**—Lightweight strap is used to bundle newspapers, seal and bundle cartons, and secure light loads. Seals secure strapping to maintain correct tension.

**Strapping and Buckles**—These kits can be used to replenish supplies at workstations and on strapping carts, or can be used independently of carts and workstations. The buckles are secured manually, without the need of a sealing tool.

**Strapping Kits**

Set up a new workstation for polyester strapping complete with a wheeled cart, strapping, tensioner, and compatible seals and sealer. These items work together to perform all the tasks required to strap and secure polyester strapping. It is noncorrosive so it will not damage surfaces, and can be used to secure lumber, heavy pallets, and other medium-to-heavy loads.

Kit Applications	Fits Strap Width	Thickness	Break Strength	Strapping Length	Strapping Seal Type	Item No.
<b>Polypropylene Strapping Kit</b>						
Standard	1/2 in	0.026 in	500 lb	3,600 ft	500 Open Seals	2CXL5
<b>Polyester Strapping Kit</b>						
High Tensile	1/2 in	0.025 in	775 lb	5,800 ft	500 Gripper Seals	2CXL6
High Tensile	3/8 in	0.035 in	1,400 lb	4,000 ft	500 Gripper Seals	2CXL7

Corrugated

HDPE

**No Stack Cones**

**Corrugated** cone attaches to the top of a shipment with packing straps as a notification that the pallet will not tolerate the weight of stacking.

**HDPE** pallet cones resist bending compared to corrugate pallet cones.
