Critical Area and Delicate Task Wipes

■ Low lint

Soft and nonabrasive, wipes are used on delicate items like small parts and lab instruments and won't leave fibers behind on electronics or lenses.

KIMTECH Prep ScottPure—

Cloth-like softness with high absorbency for cleaning and disinfecting.

WypAll—Wipes are acid-, base-, and solvent-resistant to prepare surfaces and clean up oil, grease, and ink.

Product Brand/ Series	Dispensing Form	Sheet Size	No. of Sheets	Material	Mfr. Model	Item No.	Pkg. Qty.

Cleanroom Dry Wipes

■ Low lint

Commonly used to remove surface contaminants and spills in controlled environments with low levels of pollutants like dust, airborne microbes, and chemical vapors.

KIMTECH Pure W4—Acid-, base-, and solvent-resistant. Wipes are double-bagged in an antistatic package.

KIMTECH Pure W5—High absorption rate and capacity. Double-bagged in an antistatic package.

Tough Guy—Laser-sealed edges.

Dry Wipe Bucket Systems

Bucket systems hold dry wipes while cleaning solvents of choice can be added to create wet wipes for appropriate cleaning tasks. **Starter Kits** are for controlled chemical handling and include closed-top dispensing bucket and dry-wipe rolls. **Wipe Refills** are for use in dry-wipe bucket dispenser systems. **Bucket System Dispensers** have tight-fitting, resealable lids to help prevent spills. Dry wipes are not included.

For use in dry-wipe bucket dispenser systems. Bucket System Dispensers have tight-fitting, resealable lids to help prevent spills. Dry wipes are not included.	Product Series	Sheet Size	No. of Sheets	Color	Brand	Mfr. Model	Item No.	Pkg. Qty.
