

Professional Skincare Dispensing Systems

These 4-steps provide skin care and hand hygiene for any workplace environment. The process is designed to help keep the skin permanently healthy and consists of the following steps: protect, cleanse, sanitize, and restore. Dispenser buttons are exclusively protected with BioCote®, a silver-based antimicrobial agent that is incorporated into the plastic and inhibits the growth of a broad spectrum of bacteria and molds. Will not wear out or rub off and is effective for the lifetime of the dispenser button.
