

SAN-LAV

Stainless Steel Food Processing Tools

Electropolished finish enhances corrosion resistance and allows easier cleaning.

Shovels—D-handle shovels are specifically designed for use with food, drug, beverage, and chemical processing equipment. Can also be used as a snow shovel.

Forks—For meat, poultry, and other industries where cross-contamination is a concern.

Scoops—Pharma scoops are ideal for use in the pharmaceutical industry and other hygienic applications.

Pails—Heavy-duty, corrosion-resistant construction with no rolled edges or areas to collect dirt or bacteria.

Mixing Paddles—Durable paddles are ideal for moving bulk materials.

Dump Buggies—Heavy-duty construction with a reinforced bottom plate and solid top rim. Standard lifting fitting can be used with most standard loaders and dumpers. Include push handle, replaceable molded plastic wheels, stainless-steel spanners, nuts, and bolts. Use in food processing plants to move food products from one operation to another.
