

**Twist 'n Fill Dispenser 2U692**

**All Purpose Cleaner 2U674**

**3M Glass Cleaner Preprinted 1 L Bottle with Sprayer 2AV87**

## Twist 'N Fill Dilution Control System

### DISPENSER

Features a pressure-relief fitting that dilutes chemical concentrates with water to accurately and safely dispense cleaning products. Air gap prevents chemical backflow into water supply.

### WIRE SHELF

Provides neat storage and easy accessibility of chemicals.

### DILUTION CONTROL CHEMICALS

Choose a concentrate, insert the bottle into the dispenser, twist, and fill bottles and buckets with the appropriate solution strength for cleaning.

### PREPRINTED BOTTLES

Dispense mixed cleaning chemicals into labeled white bottles and sprayers. Pkg. of 12.

\* L = Low flow for bottle filling. H = High flow for bucket filling.

## Flow Control Dilution Control Systems

Dispensers minimize worker interaction with chemicals by delivering accurately diluted cleaning solutions directly into containers.

### Portable Water Hose and Quick Connect Kit

Reusable, movable kit brings highly accurate dilutions to on-the-go convenience.

**Wall-Mount Dispenser**—Uses simple two-dial dispensing, and includes a three-point locking system to limit chemical exposure and help prevent theft. Small cabinet size fits compact spaces.

### Dilution Control Chemicals

Feature numbered and color-coded labels for easy identification.
