All-Purpose Cleaners for Food Processing Information

National Sanitation Foundation (NSF) International manages a voluntary registration program for nonfood compounds and proprietary substances that provides specific ratings to help Food Processing operations understand where certain products should and should not be used.

NSF RATINGS, CATEGORIES, AND INTENDED USE

A1: Cleaning Products - General Cleaners **A4:** Cleaning Products - Floor and Wall Cleaners
A3: Cleaning Products - Acid Cleaners **C1:** Nonprocessing Area - General Products

General-Purpose Cleaners

These cleaners remove dirt, grime, and stains from a broad range of surfaces in residential, commercial, and industrial spaces. The acidic nature of nontoxic vinegar in 45TW63 is so powerful it also disinfects, deodorizes, and degreases surfaces.
