

**Calcium, Lime & Rust Removers**

Removers neutralize rust stains and dissolve mineral deposits on bathroom sinks and toilet tanks, inside boilers and radiators, and on concrete and stucco surfaces without scrubbing. Safe to use on bathroom fixtures. Rust removers take off rust and iron stains.

**Drain Cleaners, Maintainers and Openers**

Ready-to-use, bio-enzymatic products break down organic matter in drain lines. They produce bacteria to actively digest and liquefy organic matter in drains to help prevent and eliminate clogs and odors. Regular use of bio-enzymatic formulas can help prevent future clogs by eliminating buildup. Recommended for use in commercial and institutional food service operations, where buildup from fats, oils, and grease is common.

**Tile & Grout Cleaners**

Cleaners remove mold and mildew from discolored tile and grout to restore bright, clean grout lines. These liquid cleaners help prevent soap-scum buildup, lime deposits, and hard-water stains. Commonly used in bathrooms, locker rooms, spas, and other moisture-prone areas.
