

Spot and Stain Removers

Liquid removers eliminate stains, dirt, and odors from textiles. These cleaners are commonly used to maintain carpets and upholstered furniture in commercial facilities.

Removers also release oil- and water-based soils from carpet and upholstery. They deodorize as they penetrate leaving no residue.

Carpet and Upholstery Cleaners

1 gal jugs

Shampoos work with rotary cleaning methods to remove spills, spots, and stains from carpet, area rugs, and upholstery. They loosen carpet fibers, when combined with water, to remove deeply embedded soils with no tacky residue.

Presprays loosen dirt and stains in heavily soiled carpets prior to shampooing or extraction cleaning. They contain oil repellents to help fabrics and carpets resist resoiling.

Odor eliminator additive removes odors from carpeting and upholstery. Penetrates fibers to eliminate unpleasant smells including cigarette smoke, perspiration, and mildew.

Note: Find Carpet Cleaners for Extraction Machines on page 1577.

Grill and Oven Cleaners

Cleaners help remove baked-on grease and food soils from cooking surfaces and kitchen appliances. They help restore a clean appearance and improve the performance of cooking surfaces. Grill and oven cleaners reduce any potential damage caused by scrubbing with abrasives.
