## Replacement Floor Machine Rotary Brushes

Round rotary brushes are used on floor machines for cleaning and scrubbing in place of cleaning pads when the brush does not need to be changed for different tasks. Rotary brushes have a longer life span than cleaning pads, reducing tool maintenance. Use brushes with Clutch Plates sold below.

## Carpet Cleaning Pads

Use with rotary or automatic floor machines. Carpet bonnets help extend carpet life and enhance appearance when used for interim carpet maintenance. Absorbent bonnets feature a series of hooks and loops to help absorb, clean, and dry carpet. Double edge stitching extends bonnet life.

## Stripping Pads

■ Maroon color

Use with rotary or automatic floor machines. These environmentally preferable floor surface preparation pads require only a neutral cleaner or water, reducing the use of chemicals. Nonwoven mineral floor pad construction enables pad to remove floor finish from a variety of hard floor surfaces, including vinyl tile, marble, terrazzo, concrete, and wood floors. Compatible with water-based or solvent-based finishes.

Color	Floor Pad Size	Speed	Material	Brand	Item No.	Pkg. Qty.

## Trizact Diamond TZ Abrasive Polishing Pads

Provide a smooth, refined surface by consistently and rapidly smoothing and leveling stone floor surfaces. Easily buff, burnish, and polish and are ideal for jobs requiring a fine finish. Gold pads are the most abrasive and are ideal for areas where there is visible damage and wear. Red pads are medium abrasive and blue pads are fine abrasive.

Color	Size	Pad/Brush Shape	Speed	Item No.	Case Qty.
Gold	3 3/4 in x 9 in	Rectangular	3000 rpm	401M67	6
	5 in	Trapezoid	150 to 400 rpm	401M64	4
